

Equities, Market Capitalisation, P/E Ratios.

Invest in the share market
without having the foggiest
what any of it means.

All them high-finance terms, they may as well be speaking a foreign language, right? Big, complicated words that spell 'Imafool'.

Well never mind about all that complicated investor talk. Here at Elevation Capital, we make investing in shares easy.

For the past twelve years, we've been building a successful investment portfolio called the Elevation Capital Global Shares Fund, designed for ordinary Kiwis like you to get started and participate in the rewarding world of shares. We of course know what those words mean, but we also know that you don't need to.

The bit we're sure you'll find easy to understand is +12.14%*.

Yes that's right, the Elevation Capital Global Shares Fund has been a sound

performer for its investors delivering net returns of +12.14% per annum over the last 5 years*.

You don't need to have thousands to join either. All you need is \$100 initial investment and then just \$25 a month.

This will get you a portfolio of investments in companies you'll easily recognise, like Disney, Spotify, Swatch, Airbnb, Visa, Heineken, Estée Lauder and Sony to name just a few.

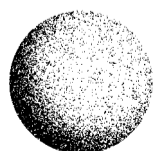

So get started today. It really is easy.
